

# GROWING ORGANICALLY

**Deardorff**  
FAMILY FARMS

*Sustainable Farming for a Healthier Life!*

To the DFF Team, Customers, and Friends,  
We want to thank you for your years – and in many cases, decades – of loyalty to our family farming business. The past four generations have been filled with amazing stories of hard work, innovation, success and friendship. This year we are implementing more programs around our sustainability efforts, rolling out over 15 new organic items and happily introducing Scott, Paul and Tony as new members of our team. With your continued support we look forward to introducing more interesting and exciting programs in the future.

Thanks again.

*Tom + Scott*
